01 · EXECUTIVE SUMMARY

From 5 Consultations to 20+ per Month.

A 90-day digital growth plan to multiply lead flow without increasing headcount.

THE STORY

Help more students.
Without burning out the COO.

We help students from Bangladesh, India, Nepal, Nigeria and beyond get into 30+ Malaysian universities. Today we rely on a single channel (WhatsApp) and one person (the COO). We have 30+ partner universities, a 99% visa approval rate, and 300+ students placed. But our growth is bottlenecked by manual, one-at-a-time outreach. This plan fixes that by adding five more digital channels — turning one student's journey into a repeatable system that serves hundreds at a time.

BOTTOM LINE

Six channels. One engine.
90 days. Self-funding from the first month.

02 · THE OPPORTUNITY

A 1.8M-Student Market.

And Malaysia captures less than 2% of it.

OUR AMBITION

Grow Malaysia's share from 2% to 5% by 2028.

That means ~3,000 more students placed across our 30+ partner universities.
The first 90 days of this plan move us from 5 to 20+ consultations per month.

Strong Foundation. One Bottleneck.

We have the network and the proof. We don't yet have the system.

THE BOTTLENECK

One channel. One person. No system.

30+

Partner Universities

Taylor's, Sunway, Monash, MMU,
APU, UCSI, INTI, SEGi, UoC, HELP...

We Can't Scale Like This.

01

1

Single channel

WhatsApp is our only acquisition channel. One person offline = no leads.

is

02

2

No SEO presence

Students searching 'study in Malaysia for Bangladeshi students' don't find us.

03

3

No video library

Our 5 YouTube videos sit unused. Campus tours, testimonials, SOP tips — gone.

04

4

No email list

We have no way to re-engage the 90% of inquirers who don't enroll on day one.

THE COST

We are winning on trust. Losing on reach.

Every competitor adding 6 channels is pulling students we should be serving.

Six Channels. One Engine.

Each channel plays a role. Together they compound into a steady lead flow.

ONE ENGINE

Every channel drives leads to one conversion moment: the WhatsApp consultation.

Each Channel, One Job.

PRIORITY ORDER

WhatsApp Business first. Then 1 blog. Then the videos.

Three wins this week. Five more by Friday. You'll feel the difference by Monday.

09 · THE NUMBERS — PROJECTION

From 5 to 60+ per Month.

12-month projection: consultations generated by the 6-channel engine.

WHY IT COMPOUNDS

Each month, last month's content keeps working. SEO builds. Lists grow. Trust compounds.

From Ad Spend to Enrolled Student.

What RM 830/month actually buys you, end-to-end.

THE BREAKDOWN

Self-funding. Every month.

The plan budget is RM 830/month. A single successful enrollment from that spend pays for the whole quarter.
We don't need outside capital to run this plan. We need discipline and weekly review.
